

# MEDICATION REVIEW PROGRAM

overview

## HOW IT WORKS

### Axiom's licensed medical professionals:

1. Examine the patient's entire drug history
2. Identify potential problem medications or dosing schedules
3. Determine medical necessity, consider alternative treatment and medications, and ensure best practices for pain management
4. Discuss with your employee the safest way to follow their Doctor's orders

## BENEFITS

- ✓ Optimize safety of your employees
- ✓ Identify inappropriate medication usage
- ✓ Reduce worksite injuries/accidents
- ✓ Coordinates with treating physician to ensure best medication practice is in place
- ✓ Potential medication savings
- ✓ Customized statistics available on your employee's medication usages

**"The CDC estimates that 48.5% of people have used at least 1 prescription drug in the past 30 days."**
